Economy in Barbed Wire!

"You Pays Your Money and Takes Your Choice."

A certain man made two fences of 100 rods each of "cattle" barbed wire. In the first fence he used what he supposed was cheap wire at 4 1/2 cents per pound. In the second he put "Glidden" at 4 1/2 cents. The bars in the first fence are 42 in number, 3 1/2 inches long and weigh 4 1/2 oz per rod or 25 7/16 pound per 100 rods, which is a fair average of bars on nearly all wires. In the second fence he puts "Glidden" wire with the same number of bars that are 1 15-16 inches long and weigh 1 1/2 oz per rod or 8 1/2 pounds per 100 rods. A net saving in Bars alone of 16 11-16 pounds in favor of the "Glidden" Which is the cheapest? For sale by

OUR COUNTY TICKET.

There will be but one issue of the HERALD after this week before election, and that number may not reach all of our readers before the 6th of November, so we have decided to make this week a somewhat extended notice of the candidates on the Republican county ticket.

FOR REPRESENTATIVE, stands the name of Dan L. Smith, of Long Island township. Mr. Smith is well known to the general public. He held the office of County Treasurer two terms and such satisfaction did he give, that he earned the title of "Honest Old Dan." He is a miller and has all his life been a laboring man. He is one of those frank, honest, out spoken men that everybody of good intentions admire. All legislatures and congress are besieged by pestiferous, cunning and oft times corrupt lobbyists, who are bent on securing some class legislation, not in the interest of the people, but of the few. The voters should send men to the law-making bodies who are incorruptible. Honest Dan Smith is that kind of a man. We do not believe he can be swerved from doing his duty by the slick, intriguing lobbyist. He is a forcible talker and clear thinker. Mr. Smith was a good soldier in the war for the suppression of the rebellion, where he suffered hardships and privations innumerable that the government might not be destroyed. His record as soldier and citizen is unassailable. He is the friend of the masses; he is just the man Phillips county wants in the general assembly. Let him be elected by a whooping majority.

FOR CLERK OF THE COURT, we have J. D. Matteson, of Crystal. Esquire Matteson is an old and highly respected citizen and farmer of this county, having been here for fourteen years. He has been a Justice of the Peace for the past ten years. At one time he served as assistant Clerk of the Court, and Judge Pratt and others who know say he is splendidly qualified for the place. He was a good Union soldier, is a laboring man, a good Republican and a most valuable citizen. The opposition tried to injure his good name in the early part of the campaign but the attempt we believe was fruitless and he will be elected by a rousing majority.

FOR COUNTY ATTORNEY.—Next is Hon. R. T. Shearer, of Logan, for County Attorney. The HERALD has from time to time since his nomination published extracts from Iowa papers and other journals very complimentary to Mr. Shearer. He was a few years ago an influential member of the Iowa Legislature and enjoyed a good legal practice in that state. His speeches in this campaign are very highly spoken of; they manifest splendid ability. He is in the prime of life, is a good lawyer, is a temperance man, is energetic and just the man to see that violators of the law shall not go unpunished. Let all the Republicans be diligent from now till election day and give him a big majority.

FOR PROBATE JUDGE.—Next is Capt. N. Poling for Probate Judge. The Captain is an old settler, coming here from West Virginia when the country was new. In Virginia he served two years as County Treasurer to the entire satisfaction of the people. He commanded a company in the union army for the suppression of the rebellion. For many years he worked on a farm, but for several years of late he has been engaged in mercantile business. He is a well informed man, social and accommodating, rigidly honest, and will make a capital Probate Judge. Let every old soldier especially, go to the polls early and stay late, and see to it that the gallant old Captain is not neglected. We all owe a debt of gratitude to the soldier who left wife and children and took his life in his hand, and went to the front to save this Republic. Let us see to it that the old soldier gets 200 majority.

FOR SUPERINTENDENT OF SCHOOLS.—For this important office our candidate is W. W. Colby of Phillipsburg. Mr. Colby is now and has been for some time the manager of the lumber yard of Howell Bros. at this place,

which position is one requiring skill to fill acceptably. In former years he was a practical school teacher and is spoken of by those who were in position to know as a very earnest, efficient and popular one. He is a man of good education and a courteous gentleman. Wherever he is known he commands respect because of his upright life and correct deportment. The HERALD takes pleasure in assuring all its readers who are voters that they need have no hesitancy in not only voting but working for Mr. Colby on election day. He is a gentleman in every way worthy to fill the responsible position to which he was nominated and we hope to see him triumphantly elected.

FOR SURVEYOR.—W. B. Stubert of Marvin, is the nominee for County Surveyor. Mr. Stubert has filled this position several terms and is as well known by the voters of this county perhaps as any resident of the county. He has had many years experience as a practical surveyor, and no doubt is thoroughly qualified to properly discharge the duties of the place. He has long been a resident of the county, is a consistent and an active Republican, and should receive the solid vote of the party. Let him be elected by a good majority.

FOR COMMISSIONER.—For member of the Board of Commissioners we have John Hahnenkratt of Arcadia. Mr. Hahnenkratt was for a long time a successful farmer and respected citizen of Taylor county, Iowa. He has been for many years a citizen of this county and is one of the most successful farmers in Phillips county. He is a well informed intelligent gentleman who reads and thinks as well as works. Financially he has been quite successful and it is a fair inference that a man who knows how to finance for himself will know how to finance for the county. He is one of the owners of the splendid new three story brick hotel now being erected in Phillipsburg. The HERALD can most conscientiously recommend Mr. Hahnenkratt to the voters of the district. We believe he will prove to be a very good and efficient member of the Board. Let him be triumphantly elected.

Interesting Letter From Oregon.

Medford, Oregon, Oct. 10, '88.

EDITOR HERALD: Having promised many of my friends to write them something of this country, I will now endeavor to fulfill the same.

After a rather melancholy farewell to the city where we have sojourned for eleven years, we took up our long march toward the western coast. In eight days we arrived at Ashland and we supposed our future home. The first thing particularly attracting the attention of a new comer from Kansas is the fruit. Peaches, apples, prunes, almonds, plums and pears, on every hand. A perfect sea of fruit, and the price within the reach of all. We were fortunate enough to have a dozen trees of fine fruit given to us, and the younger member of the family showed great activity in stowing away quite a large quantity in a very short time, and the older members including your humble servant have followed suit as far as they were able. But while there are hundreds of people who do like Ashland as a residence, we did not, on account of the irrigating ditches and the imperfect system of water works. We thought it too damp and we all agreed that the country was too rough, so after investigation we concluded to move to Medford, and we are not certain we will stay here. But some place in Jackson county we are likely to drive our home stake for one, three or five years. This is a level country here, though the land declines enough toward the river to make good drainage. Fruit is plenty, fuel and lumber cheap, also flour. These four articles are so much cheaper here that I think the average price of living will be about the same as in Kansas. Crops are said to be sure here except corn; they never miss a crop of wheat and claim they never go below 25 bu. to the acre and usually raise 35 and often 40 bushels to the acre. As to the fruit (and there is no fruit you can mention but is raised here except citrus fruit) the quantity raised is

simply enormous. For instance, one farmer showed me a blackberry patch of an acre from which he had sold over \$500. worth of fruit, and there was some left for me for the picking. But the frost catches their fruit some years except I believe up at and around Ashland, and then they have to fall back on their wheat, oats and barley and the apple crop. Apples never fail. There are thousands of acres of land though in Jackson county adapted to fruit raising where they never have any frost to injure the fruit. I see by the HERALD that you have had a little ice in Phillips county and that two weeks ago, that must mean that the thermometer has been down to 32, and it has not been below 60 here yet. At 11 o'clock to-night it registers 62, and usually stands at 80 at noon each day. The greatest change I notice of all others is the moral condition of the people as compared with Kansas. If there is one man left in Phillips county who still thinks that prohibition does not prohibit, let him visit any town in Jackson county or in fact any town on the Pacific coast, and see the effects of the open saloon as we see it every day, and he will never complain again because somebody slipped in at some other body's back door and procured by hook or crook a bottle of beer and then slipped off into some dark corner and with his back against the door proceeds to drink the same in fear and trembling that he will be caught in the act. I have to pass an open saloon several times every day and I never pass it but I wish for Kansas prohibition. Still the people are alive to the need of prohibition and are working with a will. There is a fair start in church work. The Presbyterian and Methodist are fairly represented but the Baptist denomination take the lead in numbers, presided over by a minister from Long Island, Kansas. The city claims one thousand inhabitants, and I count ten or a dozen new houses now being erected. We have had three fine rains in less than one month and no hard winds. Business seems to be flourishing, money is plenty and hands are scarce. Except the idle loafers around the saloons everybody is busy. I think this is not as healthy a country as Phillips county, there seems to be more malaria, more ague and typhoid fever except in the foot hills and mountains, but probably a far better country for lung diseases. The wet season has not commenced yet. Maybe I will not like it so well then, so till I find out more about it I'll say adieu.
